

NACHIKETA NR

Full Stack / Application Developer (MERN Stack)

nrnachi34@gmail.com | 9380552034

Portfolio | LinkedIn | GitHub

Professional Summary

Detail-oriented and adaptable Application Developer with hands-on experience in designing, developing, testing, and deploying web applications using the MERN stack. Strong ability to analyze business requirements, translate them into scalable technical solutions, and deliver high-quality code within deadlines. Skilled in problem-solving, automation, peer collaboration, and integrating modern technologies to enhance application performance.

Technical Skills

Frontend: HTML, CSS, JavaScript (ES6+), React.js, Redux Toolkit, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Databases: MongoDB, MariaDB

Tools & Platforms: Git, GitHub, Netlify, Firebase, Postman, Figma, Adobe XD

Concepts: Application Development Lifecycle (SDLC), MVC Architecture, API Integration, Automation Basics, Performance Optimization, Code Reviews

Experience

UX/UI Designer Intern

Dec 2023 – Jan 2024

Dave Brother's Technology, Karnataka, India

- Designed and enhanced application interfaces aligned with business and user requirements.
- Collaborated with cross-functional teams to deliver high-quality solutions within timelines.
- Improved usability and engagement through structured design analysis and iteration.
- Contributed to end-to-end solution delivery and implementation support.

UX/UI Designer Intern

Dec 2023 – Jan 2024

E-Patrarakar, Karnataka, India

- Worked closely with developers to ensure design feasibility and smooth implementation.
- Demonstrated adaptability while handling dynamic and evolving project requirements.
- Supported ownership of deliverables by ensuring consistency, quality, and timely completion.

Projects

CONNECT – MERN Full Stack Application

- Designed, built, tested, and deployed a full-stack mock interview platform based on functional requirements.
- Implemented secure JWT authentication, role-based access control, and RESTful APIs.
- Integrated scheduling, interview tracking, and categorized resource management modules.

- Applied input validation, robust error handling, and automated testing to ensure reliability and performance.

Cryptocurrency Dashboard – Frontend Application

- Developed a responsive dashboard using React.js and Tailwind CSS.
- Integrated live data using CoinGecko API and managed application state with Redux.
- Optimized UI performance and ensured a user-friendly data visualization experience.

YouTube Subscriber Data API – Backend Application

- Built backend services using Node.js and Express.js to fetch and process subscriber data.
- Designed structured REST API endpoints ensuring reliable data flow.
- Followed clean coding practices for scalability and maintainability.

Education

Bachelor of Computer Applications (BCA)

Vijayanagara College, Hosapete, Karnataka
CGPA: 8.3 / 10.0

Oct 2021 – Dec 2024

Soft Skills

Analytical & Problem-Solving | Communication Skills | Team Collaboration | Fast Learner
| Adaptability | Ownership Mindset

Certifications

Google Drive repository containing certificates from technical events and training programs.
